AI FRONTIERS IN CYBERSECURITY AND INFRASTRUCTURE PROTECTION

CALL FOR PAPERS

INTERNATIONAL CONFERENCE on-line

May 22, 2025

TOPICS OF INTEREST

- AI-enhanced cybersecurity
- Defending autonomous systems
- Privacy-preserving AI models
- AI applications in critical infrastructure
- Adaptive threat mitigation strategies
- Combating disinformation with AI
- Ethical considerations for AI deployment
- AI-based risk assessment frameworks
- Operational resilience through AI
- Human-AI collaboration in security contexts
- AI's role in supply chain security
- Predictive analytics in cybersecurity
- Real-time AI-driven threat detection
- AI-powered vulnerability scanning
- Machine learning applications in incident response

IMPORTANT DEADLINES

Registration: May 6, 2025
Conference date: May 22, 2025
Paper submission: May 31, 2025

SUBMISSION GUIDELINES:

https://securityanddefence.pl/Guide-for-authors,1479.html

PUBLICATION

Contribute your empirical studies, theoretical analyses, and in-depth case studies exploring the complex relationship between AI, cybersecurity, and infrastructure protection.

Accepted papers will be peer-reviewed and published in Security & Defence Quarterly.

Guest editors:
prof. Abdellah Chehri, prof. Jacek Lebiedź

FOCUS ON EXPLORING CUTTING-EDGE ADVANCEMENTS IN AI AND ITS IMPLICATIONS FOR CYBERSECURITY AND INFRASTRUCTURE PROTECTION
